

All Ability Picnic Bench

A family and wheelchair friendly picnic bench.

Material - British grown Cedar with Danish Oil finish

Length - 2.2 - 3.2 metres, **Seat Height** - 500mm

Installation: legs buried 600mm in firm ground or fixed with sub-surface resin anchors in metropolitan sites.

Maintenance: None required

Notes: Created to celebrate the character of locally grown timber. Built without the annoying A-frame that some have problems lifting legs over.

Wheelchairs pull up to open spaces. Forms an innovative meeting point and can be orientated to take in a scenic view. Becomes a popular feature for visitors who like the look and feel of natural materials.

This design works well both in metropolitan and countryside sites.

The character of the timber complements natural settings and brings a hint of natural style to an urban landscape.
