

THE SPITFIRE BENCH

2020: The 80th Anniversary of the Battle of Britain

● info@greenspace.co.uk ● 07460 761019 ● www.greenspace.co.uk

If you are managing or developing a green space, how better to acknowledge your local history than with an aircraft bench handcrafted using sustainable English timber from our Devon workshop?

This Spitfire Bench is an amazing way of celebrating your connection to the Battle of Britain and WWII. With an artistic interpretation of an aircraft, you will be creating an uplifting and inspiring feature to pay tribute to the legacy of the planes and their pilots.

Available for 2020:

A Spitfire Memorial Bench is available now at a special price, for order before 2021! See overleaf...

There were hundreds of airfields across the UK in WWII.

The vast majority of them have disappeared with housing and agricultural development.

Let us not forget the sacrifice of our countrymen.

With an artistic interpretation of an aircraft, the bench will capture your visitors' imaginations. The aircraft model you choose will be handcrafted to a scale that suits your site.

Choose from one of our existing aircraft designs:

- The iconic Spitfire
- The Bristol Blenheim Bomber
- The Fairey Barracuda Fighter
- The Horsa Troop Carrying Glider

Alternatively, our craftsman can produce an aircraft seat specific to your site; something special in solid, durable, local timber.

British Craftsmanship

Our robust designs are assembled with a smooth, sanded and oiled surface, and firmly secured to hard surfaces or lawns. Seat height is typically 18 inches (450 mm) above the ground, with no visible fixings above the bench.

Our skilled craftsmen use sustainable, English timber to make these solid benches that withstand weathering and vandalism: We guarantee our benches for 10 years and expect them to be enjoyed for much longer. Thick timbers ensure any graffiti or damage can be sanded off, and the bench re-oiled.

Spitfire Anniversary Bench - special price to celebrate the 80th Anniversary of the Battle of Britain!

We are currently building a set of Spitfire benches for order before 2021.

Special price:

£1,940 plus delivery, installation and VAT

Other Aircraft models are available - see prices below

Note: Timber sculptures are made from a local, sustainably produced living material, which may develop minor cracks over time as they settle into a new location. This is a natural process with all native timber products that does not detract from the form or the function of the product.
